

### AC1193

### WiFi Thermostat

- Room thermostat controlled through APP
- Free APP with no subscription fees
- Monitor room temperature and thermostat activity
- 100-metre open field range from thermostat to receiver (868mHz)
- 7 day programmable, 6 programmable events per day
- Large LCD display
- 5-35°C set point range
- Frost protection
- Wi-Fi function requires 2.4GHZ network and thermostat to be powered with a mains supply or MicroUSB

#### Technical Specification

Display	Backlit LCD
Clock	24 Hour
Heating System	Pumped
Transmission Range	100m Open Field
Programming Schedule	24 Hour, 5/2 Day and 7 Day Programmable
Adjustment Type	Digital Programming with Dig. Disp. Or App
Set Temperature Range	5°C to 35°C
Available Operations	Up to 6 Events per day
Dimensions	124mm x 88mm x 21mm
Operating Voltage	110 - 220V AC
Micro-USB Input	5V DC
Battery Voltage	6V DC (4 x AAA)
Receiver Supply	230V AC
Receiver Switch Rating	250V AC, 16A
Receiver Dims	85mm x 85mm x 24mm
