

### AC55695

## Emergency Twin Spot

#### Features and benefits

The AC55695 is an LED non-maintained IP20 twin spot environmentally friendly emergency light. The AC55695 has a high lumen output (720Lm) which combined with the enhanced lenses gives excellent spacing ratios. The inbuilt green charge LED gives great visibility of the charging state of the fitting. The AC55695 benefits from the latest lithium battery technology, LiFePo4.

#### Features

- Non-maintained
- Long life LED technology
- Non-maintained 3 hour emergency backup
- LiFePo4 Battery
- Low environmental impact
- Low maintenance
- Meets BS EN 60598-2-22 and other relevant standards
- Enhanced optical performance gives excellent spacing distances
- Can be mounted in any orientation.

### Technical Specification

| Attribute           | Value                                 |
|---------------------|---------------------------------------|
| Light Source        | 15w SMT LED (Comined)                 |
| IP Rating           | IP20                                  |
| Emergency Duratuion | 3-Hour (Minimum)                      |
| Mains Voltage       | 230v 50Hz ± 10%                       |
| Mains Current       | Max) 150mA 35mA quiescent             |
| Recharge Period     | Less than 24 Hours                    |
| Charge Indicator    | Integral Green LED                    |
| Changeover Voltage  | As per requirements of BS EN 60598-2- |
| Temperature Range   | 0 TO 40 °                             |
| Weight              | 200gm                                 |
| Battery             | LiFePo4 3.2v 6000mAh                  |
| Lumen Output        | 720Lm (Combined)                      |
|                     |                                       |
|                     |                                       |
