

AC6560

Compact Panel Heater 0.5kW

Introducing the Acel AC6560 Panel Heater. A Scandic design inspired panel with easy-to-use intuitive user controls.

The AC6560 features an LCD display screen with integrated digitally controlled electronic thermostat with 7-day timer offering the ability to program 4 independent schedules per day.

The timer features an adaptive start timer setting, a self-learning feature that pre-heats the room ahead of a programmed heating schedule for only exactly the amount of time required so it is at the right temperature at the start of the schedule. In addition, the electronic thermostat allows the desired temperature to be set to within 1 degree Celsius and includes a setting to help protect against frost conditions (Adjustable max SP range 5-30°C).

Technical Specification	
Attribute	Value
Output (kW)	0.50
Height (mm)	400
Width (mm)	425
Depth (mm)	115
Packed Weight (kg)	3.4
IP Rating	IP20
Approvals	CE / UKCA / UKCI
Cable Length (M)	1.3
Electric Supply Required	230-240V
Fixing Points	4
Element Type	Compact, finned, mineral filled sheath
Cable Exit Point	Bottom Right
Location of Heat Output	Top

9-AC6560-2023-V1
