

AC6576

3kW Oil Free Radiator With Timer

The AC6576 is the future of all radiators thanks to the combination of innovative heat technology and its super modern design aesthetic. It boasts super fast warm up times when compared to oil filled equivalents thanks to its Thermocore XR (Extra Radiant heat) Oil-free technology. In addition, as there is no oil it is an eco-friendly alternative to oil filled radiators.

This AC6576 model features purposefully large ease to use rotary controls and mechanical 24-hour timer so multiple on/ off periods can be set over a 24-hour period. The level of desired heat can be easily adjusted by the adjustable thermostat which comes with a frost setting and two heat settings provide optimum control over energy usage.

Portability is easier thanks to non-slip, non-scratch easy glide castors, dual integrated carry handles (conveniently at either end) and as it is oil free, lighter than oil filled direct equivalents. Other features include integral cable tidy and high gloss finish to enhance desirability further.

Safety is paramount, with overheat protection and tilt switch system fitted which cuts the power if accidentally knocked over. Again, thanks to its patented oil free technology there are no risks of leaks or ruptures. The AC6576 has been independently approved to Europe's highest product safety standard (BEAB certification) and comes with a 10-year guarantee (registration required).

This product is only suitable for well insulated spaces or occasional use

Technical Specification	
Attribute	Value
Output (kW)	3
Height (mm)	630
Width (mm)	740
Depth (mm)	285
Weight (kg)	10
Approvals	CE, UKCA, BEAB
Variable Thermostat	Yes
Heat Settings	2
Timer	Yes - Mechanical
Frost Setting	Yes
Cable Tidy	Yes
Safety Cut Out	Yes
Power Cord Length (M)	1.8
Heating Technology	Thermacore XR
